(U) Washington – US local election officials are increasingly concerned about threats and political pressure fueled by baseless allegations of voter fraud in the last presidential race, and one in five say they are somewhat or very unlikely to stay in their jobs through the 2024 contest, a national survey showed today. In the poll of nearly 600 election officials, more than 75% said threats against election administrators and staff have increased in recent years. # (U) Philippines – Philippine Authorities Seize Largest Drug Haul This Year

(U) PREPARED BY THE CALIFORNIA STATE THREAT ASSESSMENT CENTER.

(U) Valenzuela City – Philippine authorities seized suspected methamphetamine estimated to be worth more than \$19.6 million and arrested a Chinese suspect. A Philippine Drug Enforcement Agency reported about 1352 pounds of the suspected stimulant, locally called shabu, was discovered in the house in Valenzuela city in metropolitan Manila after the arrest of the Chinese suspect and his Filipina companion by law enforcers who pretended to be drug buyers. If the seized substance, some packed in tea bags, turns out to be methamphetamine, it would be the largest illegal drug haul so far this year. Tuesday's raid was the latest in a series of antidrug operations across the country this month that have led to the arrest of 11 suspects and the confiscation of a large amount of methamphetamine.
